

Salt Reducing Flavors

Gold Coast Ingredients offers natural Salt Reducing Flavors to help lower sodium in food and beverage products.

GCI Salt Reducing Flavors are made with natural ingredients that stimulate taste buds to **increase the perception of saltiness and reduce the amount of salt needed**, while maintaining desired taste.

GCI Salt Reducing Flavors are available in powder and liquid forms, and can be customized as kosher, halal, potassium chloride-free, and/or non-GMO to meet product requirements.
